

OUT AUDIO

# OUT AUDIO

## Start listening to the music.

To fully enjoy listening to music you need good hifi racks, stands and accessories.  
Handmade speaker stands complement your set, enhancing the acoustic  
and audiovisual qualities.

### Design

Our designs are based on  
knowledge and experience

### Customize

As manufacturers, we can  
change the shape, size and  
colour of our products.

### Manufacture

We use local suppliers and  
support small manufactures.

# HiFi rack - MODEL 030

Gentle and elegant and at the same time providing vibration isolation for your audio equipment. With full access to cables and space for ventilation of amplifiers, power amps, and other...

The shelf for turntable is made of hardwood plywood with high damping properties, and additionally supported on adjustable spikes.

We produce by hand, using local suppliers.

Legs with inserted M8 threads, which allows you to screw in any spikes or legs. The set includes solid adjustable spikes.

# HiFi rack - MODEL 040

Each audio equipment requires specialised furniture. Solid construction is expected to provide internal vibration damping and external vibration isolation. Moreover, while the eye-pleasing design of the furniture is important, we also we expect easy access to amplifiers, power amplifiers, players and cables.

Shelves are made of veneered plywood, lacquered MDF or any material of your choice.

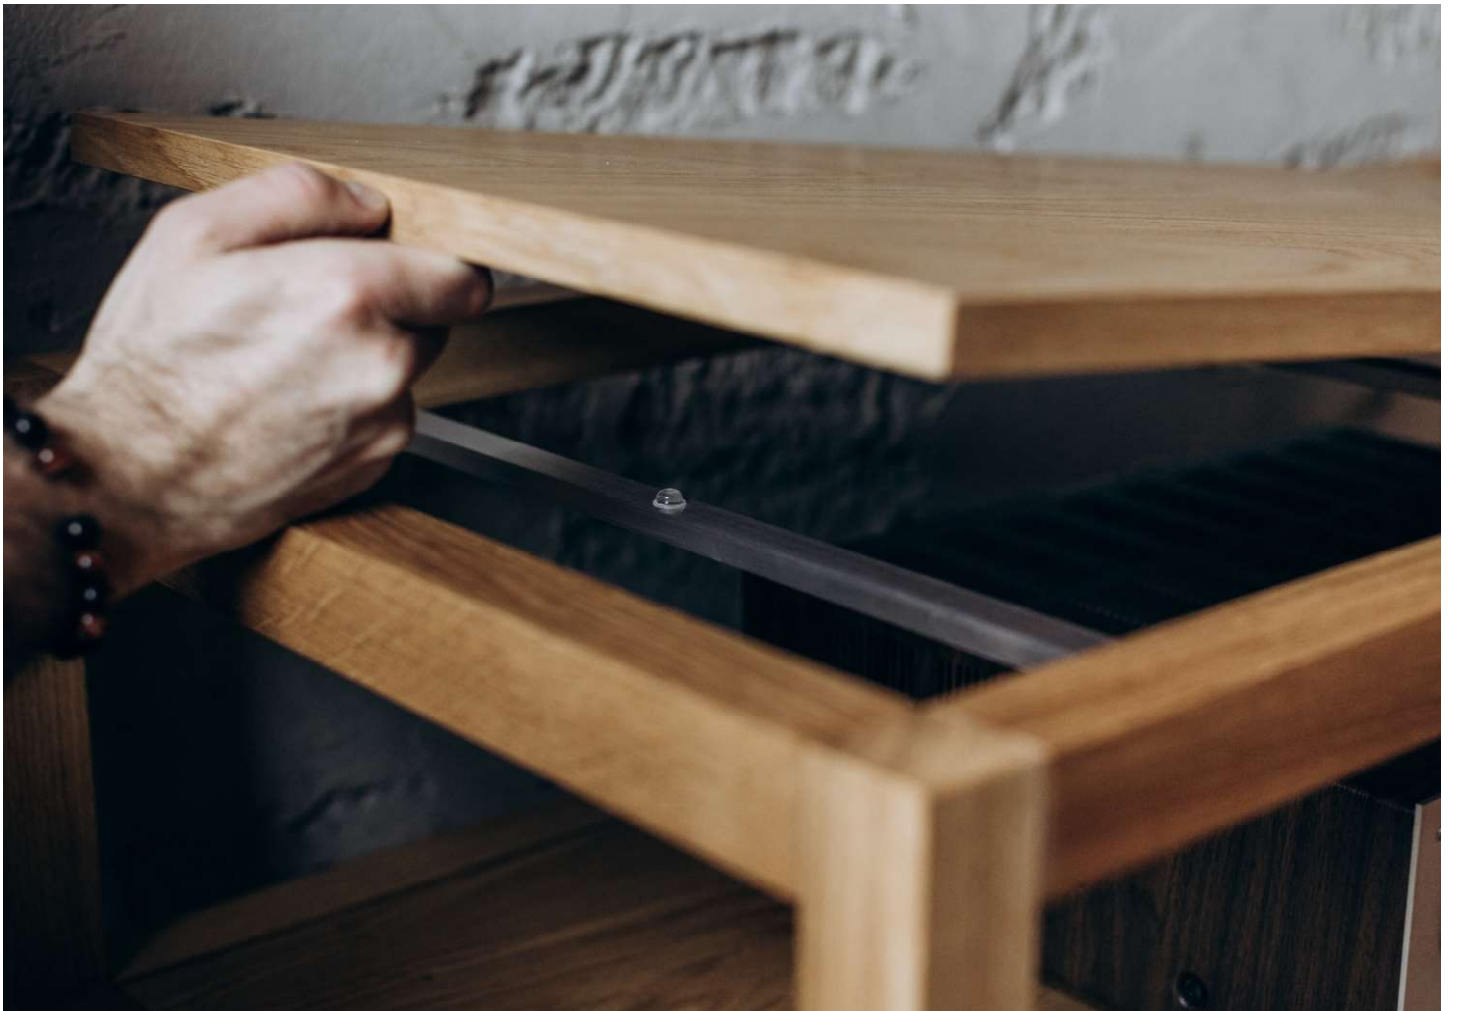

We work with local suppliers. Hole rack is hand made with the utmost care.

Legs are made with M8 thread, which allows any spikes or feet to be screwed in. One set of height-adjustable legs included.

Each shelf sits on an aluminium support with extra elastomeric vibration isolators.

# HiFi rack - MODEL 060

A well-chosen HiFi cabinet is not only the space for audio components, but above all, it provides good ventilation, access to the equipment from all sides, and vibration isolation.

We use only local suppliers. We produce our products by hand, with precision and passion.

The lower shelf can be used to store a large amount of vinyl records.

Each shelf is supported on spikes. Metal profiles can be additionally loaded with quartz sand.

Legs are inserted with M8 threads, which allows you to screw in any spikes or legs. The set includes solid adjustable spikes.

# Speaker stands

## MODEL 10 x 10

There are some speakers that need stands to demonstrate their full range of sound. The design of these stands will let you hear more.

Good vibration isolation, what helps getting a better sound of our whole set.

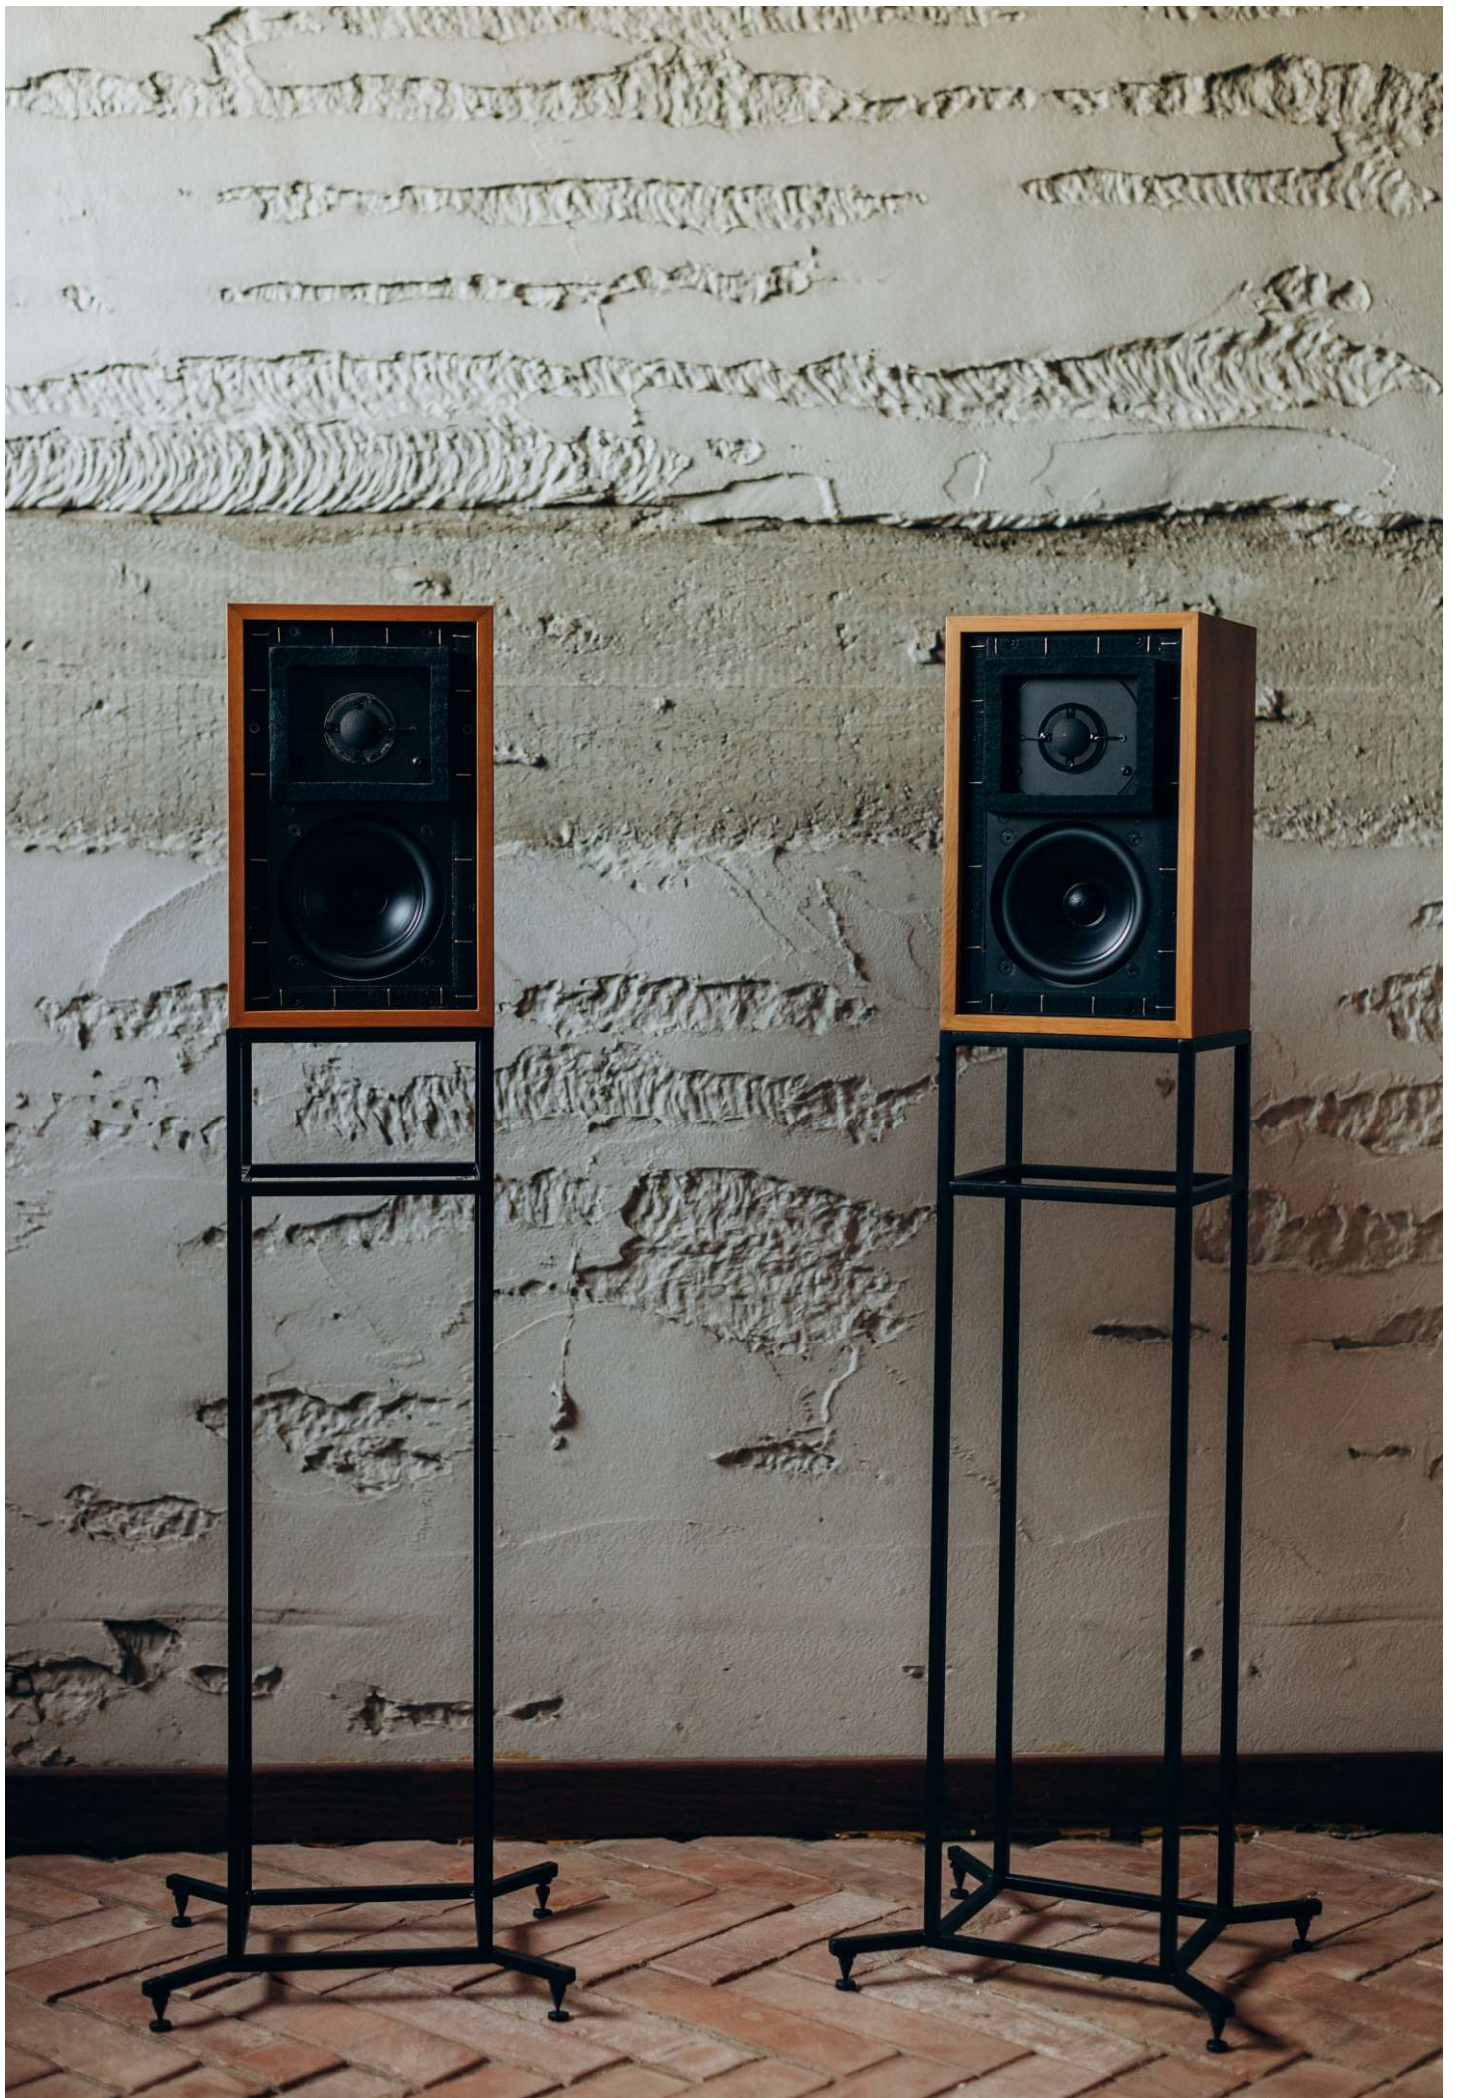

They are extremely delicate and at the same time durable. Made by hand from a solid steel bar.

Four spikes with pads for leveling and increasing the stability of the speakers stands.

For all small and medium-sized speakers, such as:

BBC LS3/5A  
Harbeth M30.1  
Harbeth P3ESR  
Spendor S3/5  
KEF R3  
KEF Ls50  
RIGADIER Mu2  
BBC LS5/9  
Graham LS5/9  
Rogers LS5/9  
Spendor SP1/2

and more...

# Speaker stands

## MODEL 15 x 25

Even best looking speakers need the stands to spread their sound wings. We make it possible thanks to the appropriate isolation of vibrations and raising the stage to the appropriate height for the listener.

Thanks to the construction based on three legs, we have obtained very high stability of the set and easy levelling of the speakers.

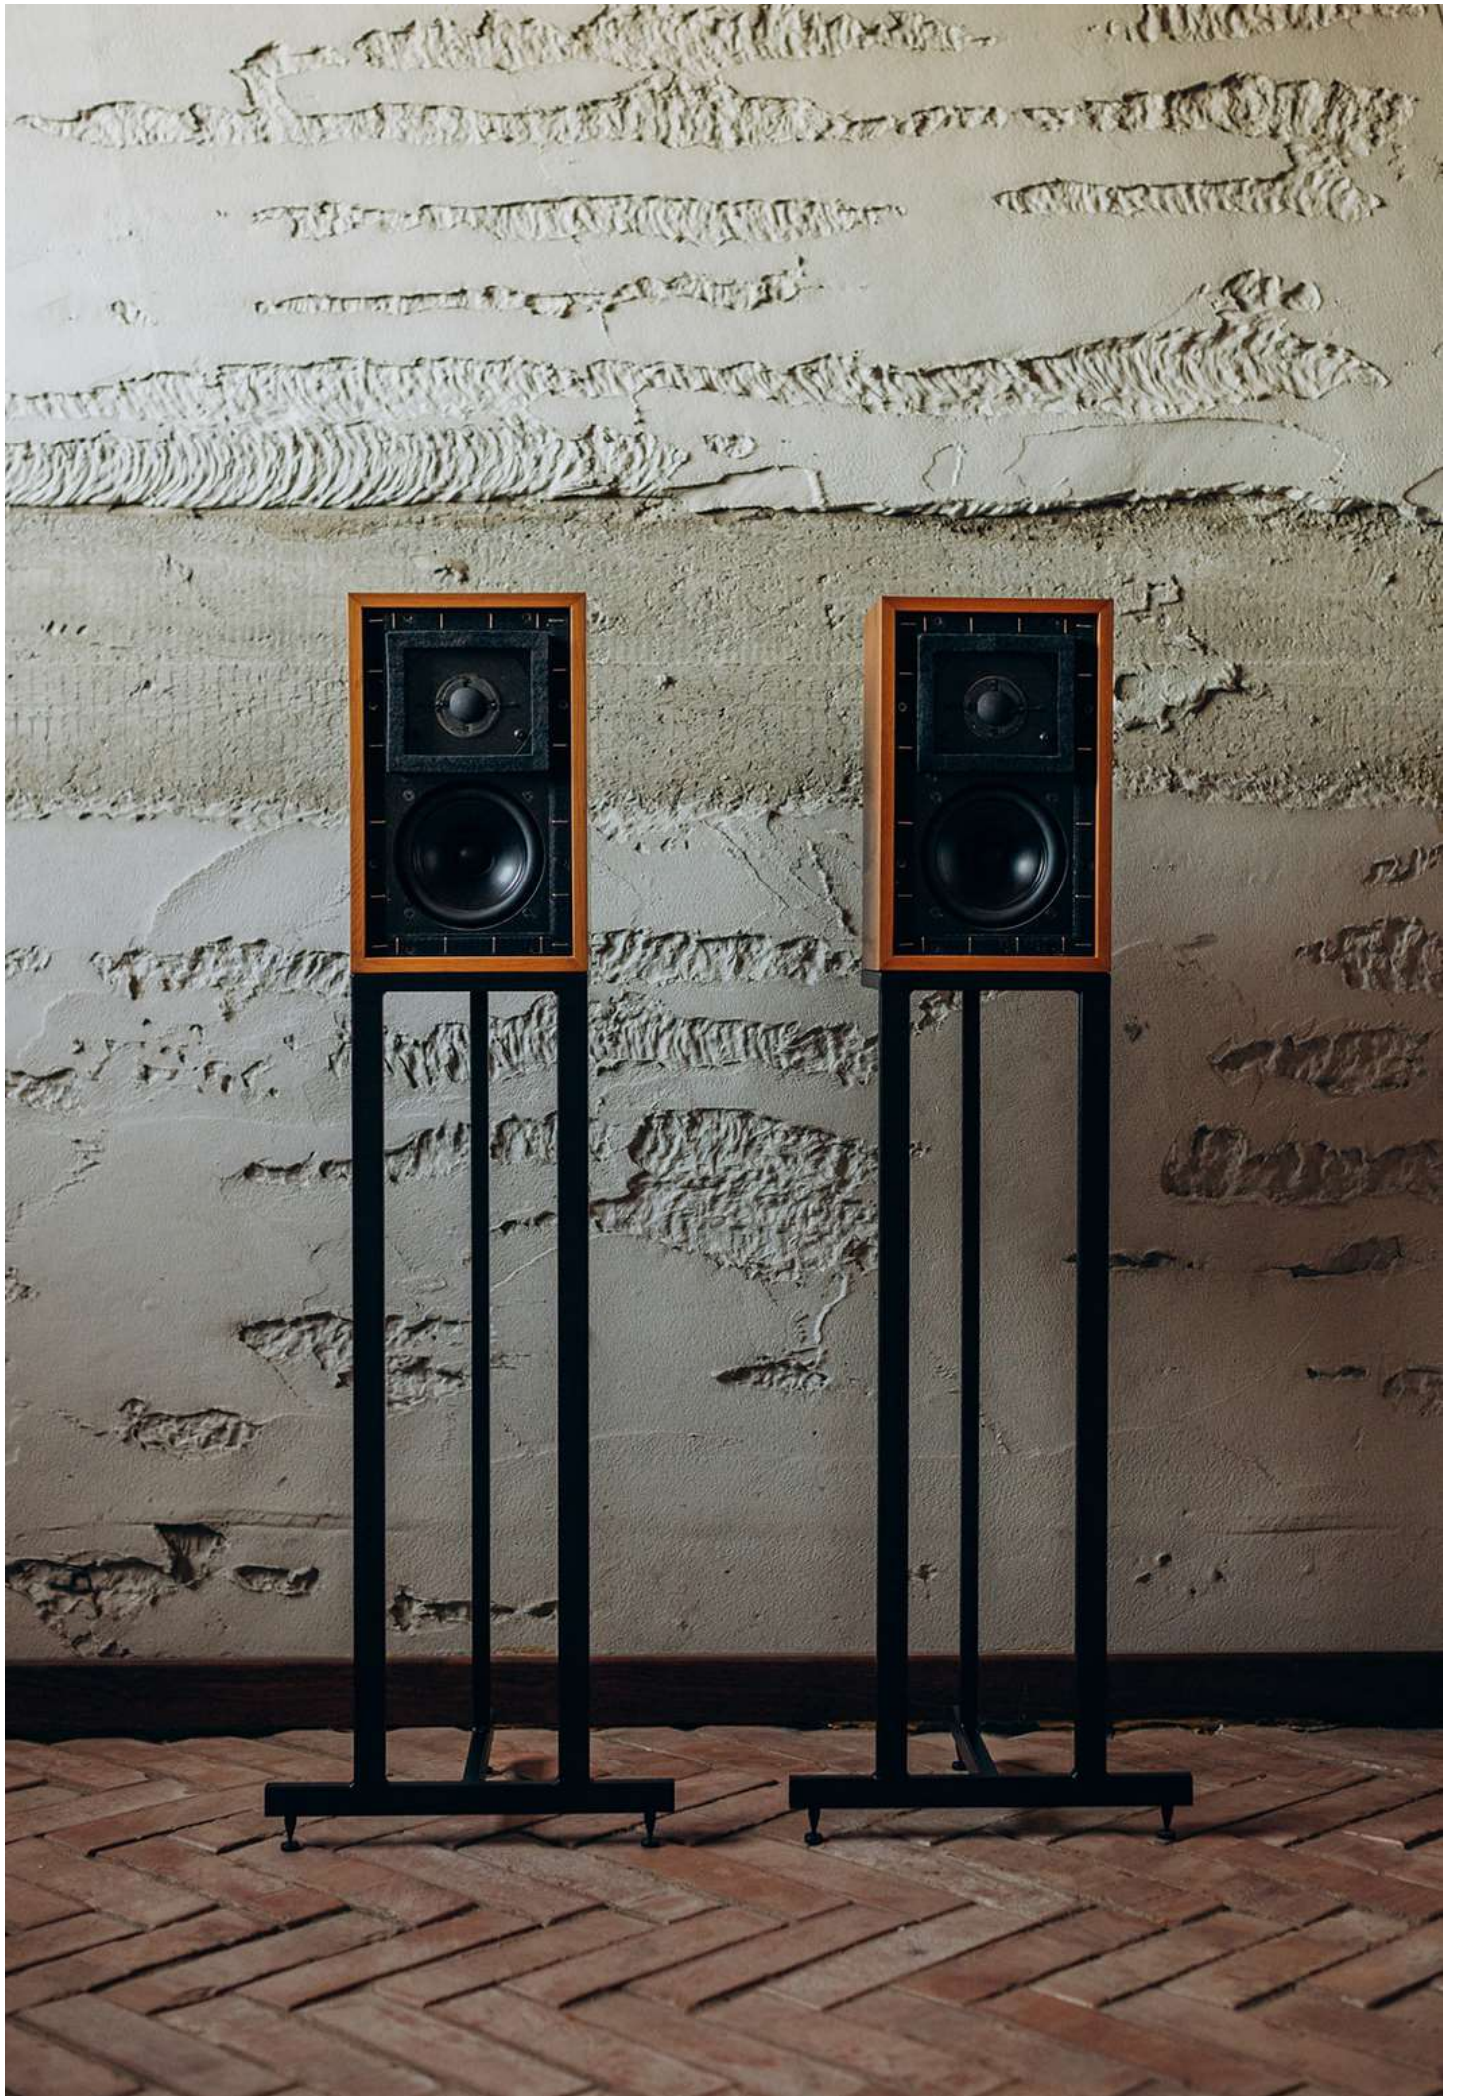

The modern, minimalist design enhances not only visual but also acoustic impressions.

Local production with the utmost care. Lepiej: locally produced with utmost care.
